YOUR WILDEST DREAMS

EVOLUTION OF AN ICON

Forward-leaning. Hard-charging. Free-breathing. And incredibly streamlined. Introducing a bold new interpretation of America's legendary pony car. The all-new 2015 Ford Mustang hits the road running with a sleek, agile body designed for performance.

Designers were challenged to improve Mustang's aerodynamics, while giving it an aggressive, energetic stance. Painstakingly sketched and sculpted, its form was relentlessly refined.

Engineers thoroughly tested the car's performance using advanced technology in the lab and on the road, then provided the designers with feedback.

Performance is enhanced by subtle elements like the wheel aero curtains – vertical slots at the outer edges of the front fascia. They create a high-pressure region that holds airflow closer to the body and minimizes drag.

Fastback or convertible, the all-new Mustang is a marvel of engineering. The stunning result of form and function flowing seamlessly together. A world-class design. Ready to be unleashed on the world.

POWER PLAYERS

Mustang masters the art of exhilaration with two feats of engineering genius.

Discover a heart of pure power with the mighty 5.0L V8 engine. You'll hear it in the roar, feel it in the torque, experience it in the acceleration. Quite simply, it's the stuff of legends.

If you're into reducing fuel consumption, the twin-scroll turbocharged 2.3L EcoBoost engine is your dream ride. It delivers thrilling power and torque with superb economy.

What more proof do you need?

2.3L EcoBoost

Twin-scroll turbocharger optimized for quick acceleration response

233kW of power and 432Nm of torque*

5.0L V8

306kW of power and 530Nm of torque*

*2.3L EcoBoost performance data measured using 95 RON fuel and 5.0L V8 performance data measured using 98 RON fuel.

SMOOTH MOVES

Mustang's SelectShift gives you the thrill of using a manual transmission with the ease of an automatic.

Simply toggle the race car-inspired paddle shifters on the steering wheel to shift gears up or down.

Fuel savings, come standard. When idling, the transmission disconnects from the engine, even if you're in gear, saving you fuel.

A silver Ford Mustang is shown from a front-three-quarter perspective, driving on a road that stretches into the distance. The background features a vast, open landscape under a sunset sky with soft, warm light. The car's headlights and fog lights are on, and the overall scene conveys a sense of freedom and performance.

HANDLES LIKE A DREAM

Sudden manoeuvres. Heavy traffic. Challenging road and weather conditions. The all-new Mustang offers sophisticated handling technologies that help you maintain control, so your drive can be more carefree.

Mustang's advanced braking system distributes brake force between front and rear wheels, and prevents wheels from locking. The result? Peace of mind, while you enjoy Mustang's pinned-to-your-seat power.

An advanced brake lineup brings Mustang to a stop faster than you can say, "Whoa-boy!"

Greater handling when you need it most. Dynamic Stability Control (DSC) and Traction Control System (TCS) work together to understand changing road conditions and your responses.

Our hot-handling Mustang is ready for action. In fact, it's already proven itself in our most rigorous testing, logging more than 4 million kilometres.

Holds the road with ease thanks in part to its fully independent, integral-link rear suspension. Based on a lower H-arm, a vertical link, an upper camber link and a toe link, this state-of-the-art setup helps Mustang deliver enhanced anti-squat and anti-lift properties. Which gives it better pitch control during hard acceleration and braking.

For even more grip, unsprung mass is kept down by the use of high-strength aluminum alloy for the rear knuckles and H-arms.

Better road feel, a better ride, and more precise handling are just a few more benefits of the all-new suspension system, which incorporates a new double-ball-joint configuration up front as well.

DRIVERS: TAP THIS

The all-new Mustang serves up hot new technology designed specifically for you. Next time the road starts getting slick, just tap a toggle switch on the dash to adjust its Selectable Drive Modes. And keep going.

Choose from 4 modes: Normal, Sport+, Track, and Snow/Wet. Each one activates predefined powertrain and chassis calibrations suited to that particular driving situation.

Normal mode delivers a balance of comfort and responsive handling for an engaging driving experience.

Sport+ mode provides more responsive steering and throttle response, plus different shift points if your Mustang is equipped with the SelectShift® automatic transmission. It's great for more spirited driving on twisty roads.

Track mode is designed for the motor enthusiast who occasionally hits the track when pure performance is desired. It produces a more powerful engine sound and provides a performance driving experience by allowing the engine to respond directly to the driver.

Snow/Wet mode comes in handy when road conditions take a turn for the worse. It provides confident handling by retaining a connected-to-the-road feel without sacrificing any of the inherent composure of your new Mustang.

HOW SUITE IT IS

When it's time to hit the track do it in style with Mustang's Track Apps suite. The system gives you feedback on what your car is doing, how it's performing, and most important, how you're performing.

For customized steering feedback, the selectable effort electric power-assist steering offers you 3 modes (Standard, Sport and Comfort) menu.

You can also monitor g-forces, braking times and acceleration times, all within the Track Apps.

View your performance metrics on a 4.2-inch message centre screen.

TALKS THE TALK

SYNC® 3 is a fully integrated, voice activation system that lets you use your favourite devices while your hands stay on the wheel, and your eyes stay on the road.*

Sync your phone to call your friends, play your favourite music, find the perfect temperature with hands-free Climate Control, and stay on track with the integrated Satellite Navigation System. It comes complete with a customisable 8" Colour LCD Touch Screen. Best of all, it can be paired to more than one mobile device.

At the touch of a finger it is easy to access the features you want. With a new capacitive 8" touch screen SYNC® 3* is quicker and more responsive than ever before.

Seamless integration with your smartphone through Apple Car Play, Android Auto and Applink 3.0. Allowing you to choose how you remain connected to your world.†

No need to hang up and re-dial. Calls automatically transfer between your headset and SYNC® when you get into or out of your car.

SYNC® 3's emergency assistance# can call emergency services and share your exact GPS location in the unlikely event of an accident that shuts off the fuel pump or activates an airbag.

*SYNC® 3 standard on all models commencing June 2016 production. SYNC™ 2 standard on all models prior to June 2016 production. Not all SYNC® 3 features are compatible with all phones. †Each program requires a compatible smartphone and active data service. Apple Car Play requires a connection cable, sold separately. Apple Car Play is a trademark of Apple Inc. Android Auto is a trademark of Google Inc. #To use Emergency Assistance, your phone must be paired and in mobile reception range.

LIFE SHOULD BE EASY

So we've made yours a little easier. Smart Keyless Entry with Push Button Start lets you get in and start your Mustang with less effort. While MyKey™ technology helps younger drivers keep their minds on the road.

We can't find your keys for you, but as long as you have the key fob on you, you're ready to go. Smart Keyless Entry allows you to unlock the driver's door with a touch of the handle. To start her up, put your foot on the brake or clutch, press the START/STOP button and you're away.

Ford's MyKey™ technology gives parents of younger drivers peace of mind by reducing distractions and limiting speed. It enables vehicle owners to limit stereo volume, increase the frequency of seat belt reminders, and block incoming phone calls and text messages while other drivers are behind the wheel.

Quality

We design and build your Ford to feel as good after many years of service as it did the day you picked it up. And to drive just as beautifully, too.

Sustainability

Using advanced technology, we're committed to creating vehicles with improved fuel economy, reduced CO₂ emissions and a lower overall cost of ownership.

Safety

Ford's Intelligent Protection System uses sophisticated technology designed to help prevent an accident and, if one should happen, to help protect you.

Smart

Vehicles with smart, intuitive technologies designed to connect you to your world and many clever solutions that make life a little easier.

Speak to your Ford Dealer today about how we can help you make the most out of your vehicle ownership experience.

Complimentary State Auto Club Roadside Assistance and Membership.

Our commitment to your complete satisfaction plays a major role in everything we do. That is why we provide a 12 month Roadside Assistance package including State Auto Club Membership for all Retail and Blue Fleet Customers (with fleets less than 5 vehicles).

This package gives you access to the largest network of roadside assistance providers in the country, so you can be assured that you have non-stop coverage every day of the year.

The benefits of being a member are not limited to the peace of mind of 24/7 roadside assistance. You also have access to a wide range of member benefits including Show Your Card & Save. In addition, you will maintain any benefits accrued through your existing years of membership (where applicable).

Complimentary State Auto Club Roadside Assistance & Membership is valid for eligible Ford vehicles and is available from participating Authorised Ford Dealers only. Visit your local Ford Dealer or refer to ford.com.au for more information and full terms and conditions.

Warranties & Service.

3 year/100,000km new car warranty.#

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories and Ford Licensed Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion.#

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

myFord Warranties and Insurance.

When you first turn the key of your brand new Ford you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties and Insurance, visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.

12 months/15,000km service intervals.

Under normal driving conditions service intervals are 12 months or 15,000km, whichever occurs first.

FORD SERVICE

At Ford, we are committed to providing an outstanding ownership experience. For example, we think you should always know what you're going to pay for a standard service, before you go in. So we offer a Service Price Promise for the life of your car, which means we'll publish the maximum price you'll pay for your next A or B logbook service at participating Authorised Ford Dealers on all vehicles built from 2007.

However our service doesn't end at the service garage. With each standard service at a participating Auto Club Dealer, Retail and Small Business

Customers (fleets of less than 5 vehicles) will also receive up to 12 mths Auto Club Membership (including free Roadside Assistance), for up to seven years. Eligible customers will even have access to a free loan car with any scheduled service, through participating dealers. Why do we do all this? Because at Ford, we think that's what service should be.

For more details visit your participating local Ford Dealer or visit ford.com.au/service/t-and-c for full terms and conditions.
